MALAVIYA NATIONAL INSTITUTE OF TECHNOLOGY JAIPUR

14th INTERNATIONAL CONFERENCE ON

PRECISION, MESO, MICRO AND NANO ENGINEERING | COPEN-14

18–20 DECEMBER 2026 • MNIT JAIPUR, INDIA

PRE-CONFERENCE WORKSHOP

17 DECEMBER 2026 | 2:00 PM – 5:45 PM

Half-day post-lunch session • Two parallel workshop tracks

TRACK A | ADVANCED MANUFACTURING

Emerging Trends in Precision, Meso, Micro and Nano Manufacturing

- Precision, micro and nano manufacturing
- Additive & hybrid manufacturing
- AI, digital twins and smart factories
- Industrial manufacturing technologies
- Robotics and automation

Focus: fabrication, digital manufacturing & industrial applications

TRACK B | RESEARCH & PUBLICATIONS

Research Funding, Industry Collaboration, High-Impact Publications

- Grant writing and funding schemes
- Springer / Elsevier journal publishing
- Research visibility and citations
- Industry collaboration and consultancy
- Patents, startups and technology transfer

Focus: funding, strong proposals, publishing & IPR awareness

SPEAKERS & TECHNICAL SESSIONS

Talk topics and speaker affiliations follow the supplied workshop schedule.

Prof. I. A. Palani

Department of Mechanical Engineering, IIT Indore

2:15–3:45 PM • TRACK A

- Ultra-precision machining and diamond turning
- Laser and electrochemical micro-machining
- Micro-metrology and dimensional characterization
- Nanofabrication, lithography and thin-film
- deposition
- Biomedical and electronic system applications

Prof. J. Ram Kumar

Professor of Mechanical Engineering, IIT Kanpur

2:15–3:45 PM • TRACK B

- Government, industry and international funding
- opportunities
- Research grant proposal strategies and budget
- preparation
- Publishing in Springer, Elsevier, Wiley and Taylor
- & Francis journals
- Avoiding plagiarism and ethical issues

Dr. John Rozario Jegaraj

Scientist, Defence Research and Development Laboratory (DRDL), DRDO, Hyderabad

4:00–5:30 PM • TRACK A

- Metal additive and hybrid manufacturing
- AI-enabled manufacturing systems
- Digital twins for precision engineering
- Robotics and automation in precision manufacturing
- Emerging industrial requirements and challenges

Prof. Frank Brueckner

Head of Technology Unit, Fraunhofer Institute for Material and Beam Technology

4:00–5:30 PM • TRACK B

- Academia–industry collaboration and technology
- transfer in Germany
- Industry expectations and collaborative R&D
- Consultancy and sponsored research
- Technology readiness levels (TRLs)
- Commercialization of research outcomes

PROGRAMME SCHEDULE

2:00–2:15 PM	**Welcome address & workshop introduction**	Overview of workshop objectives; introduction of speakers and participants. Common to both tracks.
2:15–3:45 PM	**Technical Session I**	Track A: Ultra-precision, micro/nano manufacturing and advanced fabrication. Track B: Research funding opportunities, grant writing and high-impact publishing.
3:45–4:00 PM	**Tea and networking break**	Common for both parallel sessions.
4:00–5:30 PM	**Technical Session II**	Track A: Smart, hybrid and future manufacturing technologies. Track B: Academia–industry collaboration and technology transfer in Germany.
5:30–5:45 PM	**Valedictory session**	Participant feedback • Vote of thanks • Certificate distribution.

EXPECTED OUTCOMES

- Track A: State-of-the-art manufacturing; industrial precision engineering; emerging micro/nano research challenges; Industry 4.0 and Industry 5.0.
- Track B: Competitive grant proposals; Scopus- and SCI-indexed publishing; patents, technology transfer and startups; networking with funding agencies, journal editors and industry leaders.
